

2017 GRADUATING CLASS

School graduation was completed on December 15, 2017. 35 new graduates were unleashed on the Nation of India in 2017.

Power Ministries reports that "most will return to their home bases and help their leaders." Others will embark on new adventures as traveling evangelists and pioneering new works in and around their prospective cities and villages. Some of the students have emigrated to America and started works here.

This graduating class was the 20th class. As of this year, over 800 students have been sent out into the Nation of India in Power Ministries.

After each teaching session in the school, the students go out soul-winning. In the past years, they have seen between 400 to 600 people come to the Lord. Persecution is strong in India against Christianity and because of this, they were only able to record 150 souls won to Jesus.
