

August 2017 Testimony From Pastor Raj

From Pastor Raj,

We have received our one of our big prayer request for our goal to win souls. We were praying for Chaudhary people to come at church because God is giving good harvest between Chaudhary peoples. If they come to Christ, whole community is ready to come to Christ. Big number of churches has good history of winning a whole Chaudhary community in Christ.

This month a lady from Balchaur named Sunita Chaudhary was miraculously healed. Boys who have received bicycles go with group for outreach once a week in different local areas. As they met Sunita and his poor family, they prayed and requested her husband and other family members to bring her in church. She was bleeding on her toilet and she had left to eat food since three weeks. Anything she ate, use to come through toilet as she ate , no any digestion. She was doing medication since two years, and her husband was already on debt of eighty thousand rupees, which is very big amount for such poor peoples. She was taken to big medical at Koholpur and Sitargunj of India, too, but that medicine had no any effect on her problem. Every people and relative began to talk she is on last days of her life and began to come to visit her and see her face for the last time. She was brought to church and was kept in church for three days. We do this because we can fully pray and teach them word of God. When she was brought at church- she was carried by her elder brother, she could not walk.

I could see her big eyes only with skinny body. Someone had to help her to go at toilet to pass urine and toilet. On her first day she was able to go toilet on her own feet and on third day she began to eat rice with hard foods. After she returned and within a week she was totally recovered and her bleeding was stopped totally. She began to jump and worship on her first day of church. With this great miracle her other three family relatives too got saved with total number of nine people.

On the other side, two weeks before, five families came to Christ on a single day of worship service. That is our first big result of souls saved in a single day, and we want more too. Before we went to the family with five members, we spent all night in prayer. God's anointing was there to lead them all the Christ. Ten of their whole family members accepted Christ on Saturday and three of their family members on next week. Three of the family had come to church through the house to house evangelism done by church outreach before three weeks. We had printed a small literature, which has only a story of woman healed, who was bleeding since twelve years, and an invitation scripture of Mathew 11;28 with contact number.

Two of the families were brought by local believers where, a single Chaudhary family was from Giderpur village. She is coming church with her two more children's and her husband has not still accepted Christ. She is staying in joint family, so we have not done any kind of house meeting and fellowship in her house. They are making their separate house

so soon we pray her husband, too, will know Christ and have good relationship with him.

Please pray for two small open healing crusades before Christmas.

Regards

Chet Raj Joshi
