

## **BICYCLE PROJECT- Summer 2017**

We found out about a need from Pastor Raj that he had regarding the 20 young pastors that he's discipling in the Discipleship Program. He was needing 20 bicycles for them so when they are through with the Discipleship Program, they would be able to go out two by two and preach the good news and start churches.

BWC decided to help with this project by sending our annual Pentecost special offering to the ABC Church in Nepal to help out with this need. The bicycles cost about \$80 a piece, which total \$1600. We were able to send \$1000 from the Pentecost offering and they were able to purchase 10 of the bicycles.

We were still believing that we would collect the remaining \$600 so that every young pastor would be able to own their own bicycle. Praise God for His faithfulness because He moved on a very special brother in Christ, who had a heart for missions himself, and he made a donation of \$1000 so that the remaining bicycles could be purchased with \$400 left for other little projects that the church had.

As of October 2017, all the student pastors have now been given a bike and are equipped to go out and make disciples.
