

# The Rich Soil of Nepal

- **To date, BWC has sown \$3000 into the work God is doing in Nepal through Pastor Raj with an additional \$1000 given by a friend of BWC specifically for the remaining 10 bicycles for the pastors.**
- **Pastor Raj was appointed by Jesus Christ as Apostle over the entire western region of Nepal and he has absolutely run with this command.**
- **Since this appointment, hundreds of people have come through his church. He has established 1 church in Delhi, India and another one is in work in another district in India.**

# The Rich Soil of Nepal

- There are now 6 house churches in the districts surround Lamki Nepal and are being pastored by the student pastors.
- The rest of the young pastors are bicycling their way across western Nepal preaching the Gospel to families who will eventually open their homes as a house church.
- Raj is the overseer of all these churches and is very watchful. He has taken what they were taught in the Pastor's School and is applying it to all the work Jesus is having him do.

# The Rich Soil of Nepal

- **All of the leaders in his church and the house churches are required to pray at least 4 hours a day for their churches.**
- **They are also required to fast 3 days a week.**
- **Everyone who is a member of his church is required to meet for prayer 2 hours before the service begins. During the school, they did this.**
- **The result of this discipline is an explosion of souls coming into the kingdom.**
- **The Christmas Rally gathered over 700 people who wanted to come to the fellowship where they served them food.**

# The Rich Soil of Nepal

- **We had a whole class on the importance of food and fellowship. They have incorporated that into their outreaches.**
- **They learned about corporate prayer and the intimate relationship through personal prayer times.**
- **They learned about fasting and how important it is to see breakthroughs.**
- **They learned about praise and worship and the importance of letting God build the house.**
- **They learned about obedience and the anointing of power that draws the lost to Jesus.**

# The Rich Soil of Nepal

- **There is no doubt about it. A fuse has been lit in Nepal by Jesus Christ!**
- **Raj and his team are determined to take Nepal for Jesus and His Kingdom. They do not love their lives in the face of prison or death.**
- **As far as I am concerned, BWC is blessed beyond measure to be a part of what God is doing over there and we can all rejoice in the coming year for what He will be doing!**
- **I know it is going to be awesome!**
